Dr. Donna F. Smith

SERVICES & FEES (Click blue links for more info)

Acute Symptoms (Flu? 1st Aide? Fever? Tooth/Earaches?) Call Dr. Smith for immediate assistance and fast results whenever you are suffering

BIOCHEMICAL TESTING (BLOOD, HAIR, SALIVA, URINE, STOOL)

BIOCHEMICAL PROFILES [Number of Tests in Each Profile]	CODE	ANALYSIS FEE	DISCOUNT ANALYSIS FEE	LAB FEE W/ INSURANCE	LAB FEE NO INSURANCE	LIST PRICE (Ins. Co. Fee Only)	
Comprehensive (Menopause)	C-Meno+	\$2000.00	\$1750	\$410.00	\$818.00	\$2506.00	
Comprehensive (Female)	C-Rhy+	\$2000.00	\$1750	\$410.00	\$924.00	\$3203.00	
Comprehensive (Male)	C-Male+	\$2000.00	\$1750	\$420.00	\$784.00	\$1881.00	
Basic Biochemical Tests (B,H, Sa)	Basic	\$1300-1350	\$1050-1100	\$109-\$159*	\$158-\$349	\$674-\$1615	
Tissue Mineral (Hair) - [71]	TMA	\$250-\$350*	Lab's Fee for hair and blood included in Analysis Fee; you may file your own insurance claim for reimbursement				
Blood Chemistry – [44]	NBCA-44	\$450.00					
Menopause Saliva Hormones [6]	MENO	\$350.00	Our Clientele Resides in 36 States & six international countries. Over 90% Success Rate	\$109	\$158	\$918	
Female Saliva Hormones – [12]	FHP	\$350.00		\$109	\$264	\$1615	
Male Saliva Hormones - [10]	MALE+	\$400.00		\$159	\$349	\$674	
Adrenal Saliva Hormones – [6]	ASI	\$250.00		\$99	\$150	\$325	
Digestive & Parasite Stool – [40]	CDSA/P	\$400.00		\$169	\$343	\$1099	
Bone Resorption Urine – [2]	BRA	\$250.00		\$92.00 – Insurance will not reimburse.		\$108	
Urinalysis (6 Tests/100 Strips)	92-0193	\$150.00	Tests Glucose, Protein, Nitrite, pH, Blood, Leukocytes, incl. HAC				
Dietary Analysis (\$75 for one; \$125 for two & \$150 for all three). With these three, you never need another diet.)	DA	\$150.00 (3) \$125.00 (2) \$75.00 (1)	Three "Food Chemistry" Designed Dietary Plans – 1) Dietary Plan Based on your Evaluation or Biochemical Test Results, 2) Detoxification Diet, 3) Endocrine System Dietary Plan (Male/Fe)				

OUR ANALYSIS FEE INCLUDES:

1. A Free "Health Appraisal Comprehensive (HAC) Report" (Valued at \$200) (Information on this is at the top of this page under "Clinical Nutrition (CN) Evaluations.")
2. Lab Kits for saliva, hair, urine & stool (USPS mailed to your home) and/or emailing Lab Requisition for blood drawn at a local Laboratory, according to tests ordered.
3. Includes Laboratory's fee for hair and blood tests only. (Note: Refer to "Lab Fee" columns above for the amount you will include in your Lab Kit when ordering urine, saliva and/or stool tests.)
4. Clinical Nutrition Analysis of Laboratory Reports on each test to identify nutrient deficiencies, biochemical imbalances & dysfunctions in organs, glands and body systems.
5. Design of Therapeutic Supplement Program of Care (POC) based on Clinical Nutrition Analysis "test findings" (i.e., abnormal clinical nutrition values outside homeostasis.)
6. 15-Minute Report of Findings (RF) Telephone Consultation. (Note: The first two RFs include an Educational Session (fee not included) to help assure 15-minute future RFs)

MORE ABOUT ANALYSIS FEES & LAB FEE COLUMNS - EXPLANATION (No Refund On Testing or Evaluation Fees)

ABOUT PROFILES: The above specimen testing of your biochemistry scientifically identifies your nutritional deficiencies, biochemical imbalances, AND organ and gland dysfunctions -- which represent the three stages of "degeneration" that the body progresses through prior to the fourth stage "disease." If homeostasis, the true definition of "health," is not restored in each of these stages, the sixth stage, "premature death" ensues. Though it is good news to be free of symptoms, disease free AND/OR to have Lab Reports in "normal" medical ranges, these are not the same as being "healthy."

***TMA (Hair) Analysis Fee** is \$250 when TMA is ordered with one or more other biochemical test. Exs: Hair with Blood or Hair with blood & saliva.

Lab Fee Columns (Urine, Saliva and Stool Testing): A **LAB FEE** is the amount our Laboratories charge to process specimen samples and send Laboratory Reports to Dr. Smith for Clinical Nutrition Analysis. "List Price" column lists the Lab's fees for these services. However, as a client of Dr. Smith, you receive the discounted fee listed in the **Lab Fee Columns**. Those who provide insurance information receive a larger discount, which is reimbursed if your insurance company pays all of the List Price. (Regarding our Analysis Fees, you file your own insurance claims for reimbursement, where applicable)

Details on exact tests within each profile above, along with samples of actual Lab Reports, are on "Lab Tests" webpages in our website.

CLINICAL NUTRITION (C.N.) SCIENTIFIC EVALUATIONS

(060113R091515)

(Fees include Evaluation and Design of Therapeutic Supplement Program)

SERVICE	DESCRIPTION	CODE	FEE	TOTAL
HealthAppraisal Comp/HAC	All 10 body systems (Averages \$15 ea. system)	HAC	\$200.00	
Health Concern (HC)	<u>Evaluation</u> based on your top #1 to #5 priority Health Concerns, symptoms OR area of body.	HC - 1, 2, 3, 4, 5	HC-1 = \$50.00 (Add \$25 for each additional Concern)	
Body Systems - Evaluation Detoxification & nutrient repletion programs	One-time fee to evaluate the priority order in which each body system is to be supported	BS-EVAL (1 of 2)	\$200.00	
Medical Tests (MD)	Analysis of Lab Reports, Exams or Tests (blood, urine, MRI, etc.) from another doctor. Ex: 6 blood tests is 6 X \$10 = \$60. (Fee is per test, not per Lab or Medical Report)	MD	\$10 per test,	

THERAPEUTIC SUPPLEMENT PROGRAM OF CARE (POC) DESIGN

Per Diagnosis(es)	Therapy (POC) Designed by providing documentation of your current diagnosis from any other doctor.	D-POC	\$150.00	
Per Drug Prescription(s)	Therapy (POC) designed per Rx to replenish nutrients depleted by chemicals in drugs-reduces drug side effects.	RX-POC	\$150.00	
Body Systems-Program	Fee to design a 3-mon. POC for one body system.	BS-POC (2 of 2)	\$150.00	
POC Updates (between Evaluations & Testing)	Fee to change your current Therapeutic Supplement Program (POC) when indicated to meet biochemical or symptom changes.	POC	\$30 - \$75	

Fees are the same for initial Nutritional Evaluation and Re-Evaluations, as well as Initial Biochemical Testing and Re-Tests. Page 1 of 2.
