

WHAT DOES DR. SMITH'S ANALYSIS FEE FOR TESTING INCLUDE?

Biochemical Test	Analysis Fee Includes:
Tissue Mineral Hair Analysis (TMA) Tests: <ul style="list-style-type: none"> 16 Minerals 36 Mineral Ratios 5 Toxic Metals 14 Metal Ratios 	<ol style="list-style-type: none"> TMA Lab Kit and postage to mail it to you through USPS. Website Passcodes for "About Hair Sampling" Instructions Website Passcode to Health and Symptom Questionnaires and Forms The Lab's Fee for analyzing your specimen upon receipt and sending your Lab Report to Dr. Smith for analysis. You receive a copy of all Lab and Nutritional Reports in a nice binder prior to Item #7. Includes the Fee for Dr. Smith's time to provide a Clinical Nutrition Analysis of your Lab Report, which is different than a "medical" interpretation of Lab Reports. Includes the Fee for Dr. Smith's time designing your Therapeutic Whole Food Supplement Program based on findings from Clinical Nutrition Analysis. Does not include cost of supplements. A 45 minute pre-paid Telephone Consultation with Dr. Smith to discuss test results, Clinical Nutrition Analysis findings, and how to implement your therapeutic supplement program.
Blood Chemistry Tests – 44 Nutritional Blood Chemistry Analysis (NBCA) of 44 blood tests – These 44 tests are the original panels that were included in all medical blood testing until Medicare and Insurance Companies reduced coverage and now your physician only runs from 16-26 of these 44 blood tests – i.e., the tests that basically tell them if you are dying or not. However, we provide comprehensive blood testing, i.e., all 44.	Analysis Fee includes all seven of the above items listed for Tissue Mineral Hair Analysis, only in relationship to blood chemistry testing. In other words: Item #1 – You are emailed your Blood Chemistry Lab Requisition, along with a list of local laboratories you to choose from near you to have blood drawn. Item #2 – Website Passcodes for "Fasting Instructions" are provided. Items #3 to 7 – same as above for Tissue Mineral Hair Analysis.
Saliva, Stool and Urine Testing For: <ul style="list-style-type: none"> Male Hormone Saliva Testing Female Hormone Saliva Testing Comprehensive Digestive Stool Analysis with Parasitology Bone Resorption Urine Testing <p>Because the information on these tests would require more space than this sheet allows, go to our webpage titled,</p> <p>"Lab Tests – Insurance"</p> <p>and click on the pop-out webpage that relates to the test you are interested in.</p> <p>Note: All Female Hormone Tests for menstruating or menopausal women, or those who have had a hysterectomy (partial or complete) now include Adrenal and Melatonin Hormone Testing.</p> <p>In other words, though on our website we have provided a pop-out webpage for Adrenal Hormone Saliva Testing, this test and the information it provides is included in both Male and Female Hormone Saliva Tests.</p>	Analysis Fee includes all of the above items listed for Tissue Mineral Hair Analysis, except #4 – Lab's Fee and with the following changes in Item #1 and #7: Item #1 – Fee includes Saliva, Stool and/or Urine Lab Kit and postage to mail it/them to you through USPS. Item #7 – A 30 minute prepaid Telephone Consultation with Dr. Smith is provided with saliva and stool testing and a 15-minute Telephone Consultation is provided with the bone urine test. Re: Item #4 – Because our Lab will file the insurance claims for payment for their Lab Fee to analyze your specimens and send Dr. Smith your Lab Report, their Lab's fee is not included in Dr. Smith's Analysis Fee. Therefore, if you have been provided a QUOTE ORDER INVOICE , it will indicate three fees to the right of the title of the saliva, stool and/or urine test. <ol style="list-style-type: none"> Schedule A Fee – if you provide your insurance information and this Fee amount by check or Card (Credit or Debit) information on its Lab Requisition (included in the Lab Kit), the Lab will file your claim. <ol style="list-style-type: none"> If your insurance pays the Lab the "List Price" amount indicated on the Quote Order Invoice, the Lab will reimburse you the entire Schedule Fee amount you prepaid. If your insurance paid none, some, but not all of the List Price, they will not reimburse you the Schedule A Fee amount you prepaid, however, that amount is all that you will have to pay for their Lab Fee. Schedule B Fee – if you do not have insurance or do not wish to provide your insurance information, then you will send a check or provide Card Information on your Lab Requisition for the Schedule B Fee amount. This is our specific client discount amount that the Lab provides for Dr. Smith's clients. List Price: The actual cost of the Lab's Fee and the amount they charge Insurance companies. So the List Price does not apply to our clients.
Dietary Analysis & Dietary Plans This is not a list of healthy foods to eat and unhealthy foods to avoid. For example, Carrots are a healthy food, but not for people who have elevated Glucose Blood Test Results.	Dr. Smith provides a Dietary Analysis of your Biochemical Tests; then provides three "Food Chemistry" Designed Dietary Plans. In other words, when analyzing hair, blood, saliva, stool and urine Lab Reports, she is also selecting specific foods, based on their "Food Chemistry" that matches your biochemical test results. Then she provides three Dietary Plans: <ol style="list-style-type: none"> Dietary Plan Based on your Biochemical Test and Nutritional Evaluation Results, Detoxification Dietary Plan – you will use this diet whenever you want to detox or cleanse the body. Endocrine System Dietary Plan (Male/Female) Dietary Plan – One major contributing factor to health challenges in muscles, joints, hormones, accelerated aging and wrinkles (to name a few) is due to drying up (lack of lubrication) in the hormonal system of the human body. You will prevent this, as well as help maintain a healthier hormonal system with this Dietary Plan.

(No Refund or Return on Analysis Fees, Lab Kits or Supplements /Products Affected by Temperature)
