my Clinical Nutrition practice took priority in my schedule or I just needed a break.*

MISSION, MOTTO, SLOGAN

MISSION “Healthy Citizens Are The Greatest Asset Any Country Can Have!” Churchill, 1943

MOTTO “Be Healthy By Choice!”• “Take Time For Your Health Now or Make Time For Your Disease Later!***

SLOGAN “It’s Best To Test Before You Buy.....Vitamins!” (Dr. Smith is the author of Motto & Slogan)

CLINICAL NUTRITION, aka FUNCTIONAL MEDICINE

Clinical Nutrition is also called Functional Medicine, Orthomolecular Medicine, and Medical Nutrition. The last term, Medical Nutrition, was introduced when the medical industry began to take notice of the successful results through Clinical Nutrition Testing and Therapies and decided to integrate our non-medical therapies into their allopathic therapy (drugs or surgery).

I prefer to stay with our original scientific term of Clinical Nutrition. First, because my Ph.D. is in Clinical Nutrition, and secondly, because it is the only term above that does not include the term “medicine,” and thus patients seeking my help can understand by the term that my clinical practice is not allopathic.
