Acute Symptoms (Flu? 1<sup>st</sup> Aide? Fever? Tooth/Earaches?) Call Dr. Smith for immediate assistance and fast results whenever you are suffering

### BIOCHEMICAL TESTING (ADDITIONAL BLOOD & URINE TESTS)

| BIOCHEMICAL PROFILES<br>[Number of Tests in Each Profile]  | CODE    | ANALYSIS<br>FEE                                      | DESCRIPTION OR ADDITIONAL<br>INFORMATION  | TOTAL |
|--|---------|--|---|-------|
| <a href="#">Tissue Mineral (Hair) - [71]</a>   | TMA     | \$250-\$350*   | Tests for Essential Minerals & Toxic Metals   |       |
| <a href="#">Blood Chemistry - [44]</a>   | NBCA-44 | <b>\$450</b>   | NBCA-44 = CMP-22 + CBC-DP + Lipids + THY-4  |       |
| Compr Metabolic Panel [14]   | CMP-14  | <b>\$200</b>   | Glucose, Kidneys, Fluids, Electrolytes, Ca, Liver Tests   |       |
| <b>CBC + Diff +Plt (Platelets) [12]</b>  | CBC-DP  | <b>\$180</b>   | Anemia, germs, white & red blood cells tested   |       |
| <b>Lipid Profile - [6]</b>   | LIPIDS  | <b>\$175</b>   | Chol. Trig, LDL, HDL, with Chol/HDL & HDL/LDL Ratios  |       |
| <b>Thyroid Blood Tests- [4]</b>  | THY-4   | <b>\$190</b>   | TSH, T3, T4, FTI(T7) – MDs test only TSH  |       |
| <b>Cardio Plus Profile [27]</b>  | Car-27  | <b>\$190</b>   | Glucose, Lipids, Electrolytes, Kidneys, Liver and Mineral/Bone (Fe, Ca, P)  |       |
| <b>Cardio Plus + CRP +HS [29]</b>  | Car-29  | <b>\$300</b>   | CardioPlus, C-Reactive Protein & Homocysteine   |       |
| <b>C-Reactive Protein [1]</b>  | CRP     | <b>\$200</b>   | Assess stroke, vascular, heart attack risk, and myocardial infarction risk also indicator of inflammation in the body.  |       |
| <b>CRP + Homocysteine [2]</b>  | CRP-HS  | <b>\$250</b>   | Both assess stroke & heart attack risk with CRP also assessing vascular, myocardial infarction risk & HC assessing coronary artery disease risk   |       |
| <b>Homocysteine [1]</b>  | HS      | <b>\$220</b>   | Assess stroke, heart attack & Coronary artery disease risk  |       |
| <b>Prostate Specific Antigen [1]</b>   | PSA     | <b>\$190</b>   | Prostate gland health risk assessment   |       |
| <b>Hepatitis A (Acute Symptoms)</b>  | H-A     | <b>\$250</b>   | IgM antibody develops within a week of symptom onset, peaks in 3 mons. gone after 6 mons. IgG=old infections. Found in 50% of adults  |       |
| <b>Hepatitis B (HBV)</b>   | H-B     | <b>\$250</b>   | Tests for acute & chronic HBV Infections before symptoms appear; undetectable in blood during recovery period; primary test for those with chronic infections, incl. HBV carrier state..  |       |
| <b>Hepatitis C (HCV)</b>   | H-C     | <b>\$476</b>   | Screens for Hep C Virus (HCV) infection, i.e. # of Viral RNA particles in blood. Causes the liver to become inflamed.   |       |
| <b>Hepatitis A, B &amp; C</b>  | H-3     | <b>\$600</b>   | See Hepatitis A, B, C above. Save \$376   |       |
| <b>Hemoglobin A1C [1]</b>  | A1C     | <b>\$190</b>   | Monitors Ave amount of Glucose in blood over past few months.   |       |
| <b>Vitamin D - 25 Hydroxy [1]</b>  | D-25    | <b>\$270</b>   | TMA, Liver & Lipid Blood Profiles with Vitamin D's (25 & 1, 25) required for comprehensive Vitamin D Analysis   |       |
| <b>Vitamin D -1,25 Dihydroxy [1]</b>   | D-1,25  | <b>\$200</b>   |   |       |
| <b>Vitamin D - (25 + 1,25) [2]</b>   | D-2     | <b>\$320</b>   |   |       |
| <b>Urinalysis, Complete [13]</b>   | Ur-C    | <b>\$190</b>   | Color, appearance, specific gravity, pH, protein, glucose, blood, ketones, leukocyte esterase, nitrite, bilirubin, urobilinogen, and microscopic examination of urine sediment. incl. HAC |       |
| <b>Urinalysis – 100 Strips [6]</b>   | Ur-100s | <b>\$150.</b>  | Tests Glucose, Protein, Nitrite, pH, Blood, Leukocytes, incl. HAC   |       |
| <b>Urinalysis - 6 Strips [6]</b>   | Ur-6s   | <b>\$105</b>   | Tests Glucose, Protein, Nitrite, pH, Blood, Leukocytes, incl. HAC   |       |
| <b>Dietary Analysis</b> (\$75 for one; \$125 for two & \$150 for all three). With these three, you never need another diet.) | DA      | <b>\$150.00 (3)<br/>\$125.00 (2)<br/>\$75.00 (1)</b> | Three "Food Chemistry" Designed Dietary Plans – 1) Dietary Plan Based on your Evaluation or Biochemical Test Results, 2) Detoxification Diet, 3) Endocrine System Dietary Plan (Male/Fe)  |       |

#### OUR ANALYSIS FEE INCLUDES: (You may submit our invoices to file your own claims for insurance reimbursement.)

1. A Free "Health Appraisal Comprehensive (HAC) Report" (Valued at \$150) (Information on this is at the top of this page under "Clinical Nutrition (CN) Evaluations."
2. Lab Kits for saliva, hair, urine & stool (USPS mailed to your home) and/or emailing Lab Requisition for blood drawn at a local Laboratory, according to tests ordered.
3. Includes Laboratory's fee for hair and blood tests only. (Note: Refer to "Lab Fee" columns above for the amount you will include in your Lab Kit when ordering urine, saliva and/or stool tests.)
4. Clinical Nutrition Analysis of Laboratory Reports on each test to identify nutrient deficiencies, biochemical imbalances & dysfunctions in organs, glands and body systems.
5. Design of Therapeutic Supplement Program of Care (POC) based on Clinical Nutrition Analysis "test findings" (i.e., abnormal clinical nutrition values outside homeostasis.)
6. 15-minute Consultation to discuss test findings not included in above tests, except TMA and NBCA-44. (Educational Sessions included in first two Consultations)

\*TMA (Hair) Analysis Fee is \$250 when TMA is ordered with one or more other biochemical test. Ex: Hair with Blood or Hair with blood & saliva.

### MONTHLY SUPPLEMENT FINANCIAL PLAN (CHOOSE ONE)

Choose for Pace and/or your Financial Budget. Shipping Fee not included in Plan selected. [ ] = Average Number of Priorities Supported By Plan. No, therapeutic supplements do not cost more.

|  |   |  |
|--|---|--|
| <b>Rabbit (\$350) – [5-6]</b> Fast Pace Healing  | <b>Squirrel (\$250) – [3-4]</b> Moderate Pace Healing | <b>Turtle (\$150) - [1-2]</b> Slower, yet Steady Pace Healing  |
| <b>Horse (No Maximum Financial Limit) – [All Priorities]</b> Supplement Program is designed for Time-Sensitive, Critical Care, or Anyone Wanting Fastest Healing Program Possible) |   | None of these Financial Plans work for you? Ask about the <b>Snail Plan</b> .                              |
|  |   | Read <a href="#">"3 Ways Supplements Are Manufactured Today"</a> on "Library of Articles" pop-out webpage. |
