Professional Formula

Probiotics are beneficial bacteria found naturally in the intestinal tract of healthy people. Probiotics are essential to life. They make some of our vitamins, help digest our food, balance hormones, detoxify and keep the intestinal tract healthy.

Research shows that the friendly bacteria in the digestive tract perform these vital functions:

- Manufacture vitamins such as A, B₁, B₂, B₃, B₆, B₁₂, K & Biotin
- Aid in digestion of foods we eat
- Detoxify harmful substances

But not all probiotics are the same.

Renowned microbiologist Iichiroh Ohhira, Ph.D., and distinguished research scientists from Okayama University combined ancient fermentation skills and modern science to create a powerful formula that achieves much more than a mere probiotic.

Dr. Ohhira's Probiotics® Professional Formula includes the organic acids produced during fermentation, which improve the digestive pH for the benefit of the hundreds of beneficial strains naturally found in the system.*

Why you will benefit from Dr. Ohhira's Probiotics® Professional Formula?

Normal life with its stress, processed foods and antibiotics disrupt the delicate balance of microflora. Dr. Ohhira's Probiotics® Professional Formula helps to restore the GI environment necessary for optimal health.*

Each of the 12 strains of beneficial bacteria used in the extensive 5 year fermentation of Dr. Ohhira's product was scientifically selected for a specific purpose.

The original culture medium of nutrition mushrooms, vegetables, fruits and seaweed is in the capsule, with the bacteria, providing a unique, natural energy-rich prebiotic environment and all the biogenic factors that ensure probiotic success.

Dr. Ohhira's Probiotics® Professional Formula requires no refrigeration and has a three-year shelf life. The probiotics are 100% vegetarian, all natural, non-GMO and guaranteed free of Soil-Based Organisms (SBOs). They are dairy- and gluten-free.

Ask your health practitioner about Dr. Ohhira's Probiotics® Professional Formula today.

Biogenic:

Adjective

1. produced by living organisms or biological processes; "fermentation is a biogenic process"
2. essential for maintaining the fundamental life processes; "sleep and food and water are among the biogenic needs of the organism"

Dr. Ohhira's Probiotics® is a registered trademark of Essential Formulas.
