My Journey from Hell to Health—A Double Helix Water Testimonial

In early 2014, I was at the end of my rope. Diagnosed with interstitial cystitis in 1980, irritable bowel syndrome in 1991, endometriosis in 1993, and finally fibromyalgia in 2005, the constant pain and subsequent pharmaceuticals prescribed to me over the years had destroyed my life and all but suffocated any joy I could still muster up. My days were filled with pain and exhaustion, while my nights were agonizing and sleepless. I endured several pelvic surgeries over the years and I had been prescribed dozens of medications. Whatever new and amazing drugs big pharma could dream up to treat each of my diagnosed diseases were tried. Dozens of courses of antibiotics, muscle relaxers and specialty drugs allowed me to function during the day, while sleeping pills and anti-depressants gave me what fitful slumber I could snatch at night. But it wasn't until I entered into a pain contract with a respected pain management physician in Seattle that I finally gave up the Ibuprofen and wine that had, up until then, kept me functional despite the pain. My new doctor was aghast when I told him that I controlled my pain with 1,800 mg per day of Ibuprofen, followed up with a bottle of wine after work most days. The realization that this combination could eventually kill me was why I was convinced, at that point, that opioids were my next best option.

All this changed in 2014 when I was introduced to Double Helix Water. Even though I highly doubted that this tiny bottle of structured water molecules would do anything to ease my suffering, I decided to give it a try. I had tried everything else my doctors could think of, including acupuncture, that proved to be more painful than the diseases themselves, and craniosacral therapy that did bring me some level of relief, albeit temporary. In 2013, at my naturopath's suggestion, I was even tested for food allergies. As it turned out I was allergic to everything I was eating, which at that point wasn't much, so another diagnosis was added to the growing list of auto-immune diseases that were destroying my body and my life—leaky gut syndrome.

So I accepted the little bottle of Double Helix Water given to me in February 2014, and with an open mind began my journey back from hell to health. Two years of drinking Double Helix Water later, and I am feeling better than I have since I was 15 years old. At this point, all of my diagnosed diseases have faded and I am experiencing more energy than I've known in 40 years, blissful sleep, and a reduction in pain of about 95% most days. I've been able to wean myself off of most of the drugs I had come to depend on, even the opioids, and the approximately \$1,500 per month spent on pharmaceuticals for over 15 years has fallen to less than \$300 per month in just two years. In addition, after a short nine months of Double Helix Water consumption, my very nearsighted eyes—legally blind since I was a young child—changed from a visual acuity of between 20/300 and 20/400, to 20/50 and 20/100. My optometrist has told me that the changes in my vision are physically impossible, yet even he admits that it's happened. I have even caught myself, on several occasions, driving to town without glasses at all, which I could have never considered just nine short months earlier.

My body literally craves Double Helix Water now, and I find myself drinking another couple of ounces whenever I am feeling tired, stressed out from the day's activities, or achy from inflammation or injury. Even our dogs and cats demand their Double Helix Water every day with simply amazing results. The power of Double Helix Water to remove toxins from our bodies on a daily basis, coupled with decreased inflammation and, subsequently, much lower levels of pain, is simply astonishing. Over 40 years of constant, incessant pain has vanished. Just as important, I am now eating foods that I wouldn't have dreamt I would ever be able to eat again. This tiny bottle of structured water molecules has literally given me my life back and I am so incredibly thankful that I decided to give it a try before it was too late.
S.H., Washington

Hi, I wanted to share this special day with you. My grandson, Sammy just spoke his first sentence this morning!!! He said, "It's no big deal" in response to what his Mom had said to him. Sammy is 8 yrs. young now.

Your product, Double Helix Water was used for Sammy and joins in his healing!
With much love and respect to all of you, especially from Sammy.

Will pass this on to other's....

Keep up the good work!

Much Appreciation,

Suzanne

I would first like to say that your lotion is amazing. I have battled eczema for years that has covered my entire body at times. I was recently diagnosed with severe Celiac disease and told that the eczema was by was a by-product of this condition. The results on my skin were almost immediate.

Within a week my skin began to look normal again and the itching reduced.

It has helped me heal and given me relief that I never thought I would ever have again, not to mention that I can wear dresses again now that skin on my legs has cleared up. Because of how magical this product seems to be on my skin, I am very interested in trying the water—hopefully it can help the internal healing the way that the lotion has helped the external healing.

I believe in this product (at least the lotion) so much that I want to tell the world about. No one who has ever experienced a skin problem such as mine should have to live without the knowledge of this product! Thank you and I look forward to hearing from.

P.S. I have a BA in Biology and did post graduate work in Public Health Microbiology.

Sincerely,

R. S.

Because my mother received chemotherapy treatments as part of her cancer treatment protocol, her fingernails began to loosen and were going to fall off of her nailbeds. The doctor told her to watch them closely because they would probably become infected. They soon became very tender and red. My mom began using the Double Helix Cream and her fingernails never became infected! In fact, it saved her nails and she never lost one fingernail! Her doctor was really surprised! The cream has been amazing!

L.O. Florida

I use Double Helix Water with my Neti Pot. I was starting with an upper respiratory infection and after using the Neti Pot with Double Helix Water, it stopped it completely. As soon as I have any sinus problems beginning or feel as if I am getting sick, Double Helix water stops it immediately, especially with the Neti Pot. My daughter has celiac disease and several diagnosed skin conditions: eczema, ichthyosis (extremely dry skin that won't hydrate) and keratosis pilaris (little red bumps on the back of her arms and front of thighs). As a teenager, nice-looking skin is a high priority. She has tried many creams over the last 13 years---prescriptions, over-the-counter products and health-food store products--all with little or no success. After finishing the first tube of Double Helix Water-enriched Skin Cream, we noticed her skin was more hydrated and less red. At the end of the second tube, she excitedly showed me her arms and legs---entirely clear, smooth and moist skin! She uses it daily.

Karen T, Austin, TX

So I started using the DHW straight in my eyes to see if I could heal up a lesion on my cornea. You should see my eyelashes!! They have been growing like hair does. And the cornea healed as well. I took it for 3 days for the eye, just using it right before bed but my eyes felt so good I continued using it at night for about a week and a half. I have had that lesion since the end of May but can't stand to go without the contacts that would have allowed it to heal. Wish I would have thought of it sooner! I have noticed that my close up vision is different as well.

L. L. Idaho

The main thing is that Double Helix Water (DHW) helps the body heal faster. DHW will do things I cannot do, for headaches for example, I can do an adjustment which will help but DHW goes to work at the gene level and therefore complements what I've done. With an autistic child it helps accelerate the process of healing. Think of a wall, this water is like rebar which makes the wall stronger. It holds the adjustment and enhances everything I'm doing with a patient. You can't go wrong with adding DHW to the treatment process. It assists in the global healing process. -- Dr. Bernardo Perez III D.C.

We have seen consistent improvement since my son, Cooper, who is 22, started on Double Helix Water almost two years ago. But since the more intensive autism protocol, the improvement has increased dramatically! His autistic symptoms are improving rapidly. Also, he had four warts on his hands, and had had ingrown toenails for years. Within the eight day start on four bottles per day, his warts disappeared. His toenails are significantly improved. He has had seizures since he was 12, which had leveled out at roughly one per month, with varying short-lived improvement using different orthomolecular approaches over the years, as well as meditation and yoga. I am a homeopath, and do not generally suppress symptoms of disease, which is what seizures are. So, Cooper has never been medicated for his seizures. After starting the autism protocol (which we followed as I did not have the seizure protocol from you folks yet), he had two seizures a week apart, with the second one being atypical for him--sorter in duration and intensity, and he was uncharacteristically lucid in his post-ictal state. That was over 6 weeks ago, and he has not seized since. It is too soon to tell for sure, but we feel

his seizures may be behind him. He has told me that the Double Helix Water, "made his seizures go away".

We are thrilled, and I would very much appreciate passing our thanks on to anyone who deserves it down there.

Sincerely,

LH

Testimonial for Cream

My facial acne has improved by 50% in just 2 weeks of putting it on the ache scars. I also use it for cuts, tendonitis & other muscle soreness. I highly recommend both the Double Helix Water and the cream. They're fantastic & very helpful to improving children's and adult's health.

M.W., Massage therapist and Spa owner

DHW Testimonial for ADD

"My 6 year old son, who had been diagnosed with low end ADD, had not received scores above 50% on math or English tests. After 2 months on Double Helix Water, he got 100% on a math test and 100% on an English test"

M.W. Burbank CA

I tried the Double Helix Water the first time while in a Conference for Integrative Health Care treatments.

I was doing videos and interviews and as you might imagine, having Lyme I was deeply exhausted and swollen. I thought I was not going to be able to come back the second day. My last interview of the day was with Kathy Perrou CEO of the DHW, but her and her nice generous team insisted I had to try the water myself before the interview because they saw me exhausted and in pain. Well, they do a thermal picture first and as you can see in the pictures attached I had tons of "heat" meaning swelling and all from my arm pits down to the liver and belly. The pain in my back from the neck to my butt was unbearable too and the pictures show the white hottest spots and the red ones. The white is the hottest while the blues and greens are cooler better; purple has no good circulation. Then, they had me inhaling the Double helix Water with a nebulizer, I guess it was for three or five minutes, and ten minutes later I had a second picture.

Well while walking to the room of the picture - a couple of feet away - I told them I felt like if the pain of my back was taken away, like if it had slipped down lol. The picture showed the heat in the back was almost gone; the front of my body was still swollen but there was some recovery, immediate I should say, hard to believe if I had not felt it.

I did the interview gladly surprised. Went home around 10 p.m. thinking I was going to pass out and stay in bed for the next three days but nope, at 9 am I was at the hotel waiting for Kathy Perrou and her people to arrive. I needed to show them my arm pits - touch them I said, touch me, lol. My swelling had come down a bit more while sleeping? They took me another picture and it showed some recovery compared to the first one, and then I inhaled the DHW for a couple of minutes. In theory I should had the picture taken again during the first 15 minutes but Dr Cowden arrived and I start working right away, stressing, sweating lol, when Jon came and asked me to have the picture taken but they thought the result was not going to be good due to it was one hour later and I was literally sweating. Well the pictures were really special, the swelling had come down in the liver area - under the ribs and the sides of my body- and I was working like in my good days at full speed. I worked this second day until 10 p.m.

and a third day again more than 12 hours, first time since 2005 I was able to do something like this. I don't mean I was cured nor completely recovered but I was better!

After I came home I called and bought the DHW but even though I felt it helped a bit it was not so much as during the conference so I bought a nebulizer and found out it works better for me inhaled. My sister used it too and she states it helped her with her hot flashes!!! I still have the Double Helix Water and when I get very sick and I'm on my verge of desperation I remember it and inhale it and it helps me sooo much. I use the cream to bring down the swelling in my thyroid and some other swelling I get in the face, or the body. I can't say it cures Lyme Disease, but it has something that stabilizes my sick body and regenerates it and makes it work better. What I think the Double Helix Water does is it addresses the problem each person has, like treating each specific problem. If you read the comments people make, they all have different conditions and they all say it helped in some way.

I learned something very important from their interviews and it is that the body needs to flow to be healthy and in my case my lymphatic system being clogged makes me sicker; my belly not flowing properly makes me toxic; my blood thick full of bacteria doesn't flow right either so, the Double helix water is the one that can help unblock and let the body do the proper job to restore health.

Let me say by now that I am not being paid to say this, I have no commercial relations with the company nor with any of their personnel only tons of gratitude and appreciation.

If you want we can continue to chat by Facebook anytime. I sent you a request - I hope it was you because you had two mutual friends of my Lyme group. my Lyme name is Maria Lyme Disease.

Wishing you a very healthy day

MP

I just wanted to tell you about my experience with the Double Helix water. I have been on it since about the beginning of February of 2014. I was interested in it because I have arthritis in my neck and fingers. Also, my husband passed away in November 2013, and I've been under a lot of stress and wanted to do whatever I could so it wouldn't affect my health. My son and grandson live with me, and my other grand kids are around a lot too. They all have had multiple sicknesses with colds, sore throats, coughs, bronchitis, etc. Also my brother-in-law was hospitalized with pneumonia shortly after I spent time with him. I have not been sick one day since February. My house also has the structured water house unit installed, so I've been drinking and bathing in that water for over a year. I only used one bottle of the DHW in a gallon of water, because that is all I can afford to do. However, when there is sickness around, I drink more!! Also, my finger joints have not hurt much at all during this time, where before sometimes they would just have that achy, throbbing-type pain. I am pretty thrilled with the results with doing the minimal. I am hoping I can increase my intake in the future, especially with the results I've had so far. I believe Doc Russ suggests 2 bottles per gallon if you have no inflammatory issues going on. I really want to say thanks, Doc Russ, for helping me so much, and for your efforts to keep all of us healthy!

So grateful!!

BM

I found double helix water about 15 months ago and have been drinking it and using the cream since then. I found it at a time in my life when I was quite sick from amalgam dental fillings which were of course filled with mercury. I had good teeth and did not need new dental work, I thought. I was actually unaware of the toxic substance that was in my mouth for almost 35 years.

About five years ago I started noticing thinning hair and memory problems and headaches and went to the doctor. They prescribed me anti-depressants and pain killers and all kinds of things. I ended up in the

AdvancedClinicalNutrition.com
4808 Shenandoah Drive
Wichita Falls, TX 76310
(940) 761-4045

5/9/13

hospital for three days where my heart rate was getting so low that the nurse would come and wake me up in the middle of the night. They released me with no idea what was wrong and told me to go to a heart specialist. I had no insurance and no chance of seeing a specialist.

I finally found a doctor who knew about mercury fillings and went and had them removed. Both the doctor and his assistant wore "Darth Vader" type masks while they worked on me, it was kind of scary really. I went for chelation therapy for a little more than a year, believing it to be the only "cure" for mercury poisoning. It was hard on me physically, and the cost became something that I couldn't do. No insurance.

The symptoms of the mercury poisoning came back. I felt like I was in some kind of a fog. I knew what mercury poisoning meant for my future and decided that that was not the life I was going to live. I would go in to work and the computer system was like something that I had to learn again and again. I remember one time looking at a customer while they were talking and thinking, "I am having a problem understanding language..." I felt like mental illness or Alzheimer's was descending on me. As selfish as it sounds I was not going to have my beautiful daughter see her mother not know her. I had a plan to end my life.

This is when I found double helix water. I bought three bottles and one cream. Within a couple of weeks I just felt better. The fog that was my life started lifting. I could focus again. I started being able to remember things better. Double helix water improved my concentration, memory, mood, I feel like it kick-started my brain. It is very difficult to explain without sounding dramatic. But really, I feel like it saved my life.

Like I said before, I have been using double helix water and cream now for about 15 months. I am a 57 year old horse-woman and I have been riding all my life. That comes with all the broken bones and arthritis that follows. I just expected to have to deal with that pain for the rest of my life. Right? Just what happens when you get older? I thought.

The water and cream has worked in so many ways. I feel good. If my knees hurt once in a while, or my hands, I just rub some cream on. It is SO effective. I do not know how or why but it definitely eases the pain of arthritis. It reduces inflammation, bruising, anywhere it hurts I put it on. And it works.

I have also used it on burns. Unbelievably effective. In the cases I have seen (and had) it stops the pain, speeds healing and minimizes scarring. My family and I are chefs as well as horse people and use the cream all the time. Cuts, scrapes, burns, swelling, bruising, pain.... This cream should be in every first aid kit. The faster it is put on the better it works.

I have given the double helix water and cream to my 81 year old father, my (now) 20 year old daughter, my sisters, my nieces. I have seen it help TBI (traumatic brain injury) OCD, ADHD, depression, arthritis, burns, bruising, toxic mercury poisoning with my own eyes, no doubt about it, I wanted to be there this weekend but I am unable to attend. I hope you will read this to the people there. I will give my telephone number and or email to anyone who wants to talk to me. I can only tell of my own experiences and those of my loved ones around me but these are real and dramatic changes.

There is no doubt in my mind that this water and cream works for so many, many things. It is an effective, inexpensive way of treating common and uncommon problems alike.

I cannot say enough.

RC, Texas

6 of 13

see what he was up to. This is when I came upon the Double Helix Water site and was skeptically intrigued. I have been on this path for almost 48 years and tend to be a little wary. But after I listened to Dr. Gann's 4-part video, I was WAY less skeptical and thought what the heck, I'll give this stuff a try. I had a really good feeling going into this, and it just keeps getting better.

I ordered the product and Jon (Vice President) from Cobalt Distributors (Double Helix Water) called me in Hawaii the next day and said that he had refunded my PayPal account because he found a less expensive way to ship. I was blown away by his care and after several nitty-gritty questions from me down the line about the water both he and Cathy (President of Cobalt) were SO friendly and communicative.

When I got the water, I put the drops into distilled water and drank it 3 times a day. I really had set my expectation for 'the long haul' so I wasn't expecting results right away. There were things I did notice, though right away...this was a clearer connection to myself. Again, I thought perhaps it was a placebo effect, so I just kept going and day by day I just kept feeling better and better.

It helped definitely with PMS symptoms and other noticeable affects after about 30 days was, my parrot had bitten my hand and I mean crunched down! Now because I've had a lot of these in the past, I know that it usually means my compressing it for 15 minutes or so to stop the bleeding...etc. Well, here was a miracle because it bled for all of 5 seconds, stopped, and coagulated with NO swelling...the next day the bite was barely noticeable. They've got a sports cream that I have used on my ACL strain which really helped as well.

The sports cream is AMAZING. I have been using it on my face for mild Rosacea which works like a charm. Sometimes I get Contact Dermatitis from my motorcycle helmet which NOTHING but steroidal creams has helped in the past. On a whim the other day, I thought I would give the sports cream a try and just couldn't believe it, the itching went away immediately and the rash was GONE by the next day!!

This is an amazing product.

A little more info on that Contact Dermatitis..... It had turned into full blown Eczema and it would be around for days. Nothing I could do except for the heavy steroidal skin creams prescribed by a doctor helped (even that was marginal). The Sports Cream just literally zapped it away. I mean by the next day, GONE!!! It REALLY is amazing. My eye doctor said also that I have a mild case of rosacea (I am rolling my eyes as a type this because I don't think I have rosacea!!!) - She wants me to take this prescription cream that costs \$ 75 WITH insurance. Anyway, I have been using the good 'ole sports cream on my face and whatever was causing the mild red patches here and there are gone!

It just keeps getting better and better. Drs. Gann and Lo really seem like the real-deal to me and their distribution company, Cobalt with Cathy and Jon are about as friendly, communicative and honest as they come.

Thank you to Dr. Gann and Lo, Cathy and Jon for ALL of your hard work!!

I highly recommend this product!!"

DR, Keauhou, Hawaii

I am 50 years old, a wife and a mother. I am a registered nurse of 28 years and am a nursing supervisor of a Pain Clinic. I was diagnosed with Myasthenia Gravis in 2002. MG is a rare neuromuscular disease under the Muscular Dystrophy umbrella. There is no cure for this disease. It causes severe muscle weakness and un-coordination. It makes it difficult for the muscles to expand the lungs to breath,

AdvancedClinicalNutrition.com
4808 Shenandoah Drive
Wichita Falls, TX 76310
(940) 761-4045

7913

difficulty swallowing, slurred speech, drooping of the facial and eye muscles... Just to name a few symptoms.

I was diagnosed and sent to Baylor medical in Houston where all Doctors agreed to the following treatments. Over the last 8 years I have been treated with massive doses of steroids which caused a GI bleed, requiring a hospital stay and two units of blood. Anti-rejection drugs which caused near liver failure twice in 2009. A Thymectomy in 2007. Plasmaphoresis one time and IVIG5 times.

In February 2010 I had IVIG and stopped all other forms of treatment. I didn't think they were helping and the side effects had become life threatening. The neurologist didn't think I would make it until March 2010 without having to have another IVIG treatment. He told me that my disease is one of the worst he has ever seen and didn't think I could make it a month without treatment. When I left his office that day he said, "I expect to hear from you in a few weeks for another IVIG treatment. Just let me know when your symptoms return." I was at the end of the line as far as known treatments.

I had been paying all along that God would send me the right treatment. IVIG is very effective on me which I am very thankful for but the more you take the treatments the less effective it becomes. So I have not wanted to take them very often.

A few days later Dr. Rippeteau introduced me to this double helix water. I had known her from my past in the medical community and respected her knowledge. I knew she wouldn't risk my health and safety with some "experiment," I read the Double Helix water book and she sent me some water. I have taken it twice a day without fail since Feb. 15, 2010. I have just been released from the hospital having another IVIG treatment. However, this time I wasn't as weak as usual when I have to have treatment AND the best news is I was able to prolong the treatment for almost 7 months—not a monthly treatment like the Neurologist had expected.

I feel more energized and less clumsy since I have been drinking the water. I attribute the times between treatments to the water. My quality of life is better than it has been in 8-9 years. Living with a chronic disease is something I never thought "I" would have to do. However, I decided in the beginning of all of this that I needed to take control of my disease. I followed all the medical advice and still do.

However adding the water to my healthy eating and lifestyle has made a huge difference in my quality of life. I am so thankful and feel blessed by this gift of water.

D'Ann

I am 67yrs. old and I have been a builder for almost 50 yrs. It is my lively hood and my passion, but about 2 yrs ago, I was diagnosed with gout. My foot would swell double in size and the pain was unbearable. Because of this, I was unable to walk or work for days at a time until the swelling went down. My gout affected me physically and mentally. Just after two weeks of drinking the double helix water, I noticed a difference in my foot. Now it has been two months and the swelling has gone down dramatically. My foot is not inflamed and I am able to be on my feet for up to 10-12 hrs a day again. I believe that my symptoms from the gout have been cured since I began drinking the double helix water and will continue taking double helix to live a pain free life!"

Peter

I became aware of your work this morning when I was talking to a man (Tom Lee) in China who has been using the double helix water with his 8 year old son. His son, Tommy, has made significant improvement since he began the water. As I work with literally thousands of children with autism, naturally I am very interested in anything that helps this condition.

Thank you,

DG

I am 64 years old and I have had Diabetes for ten years and a weak liver. The medication for Diabetes works against the liver causing me more problems with the liver. Two weeks ago I was having problems sleeping and my liver was swollen to the point I was in pain and could not eat much of anything. My blood sugar was averaging 290+. I also had indigestion and diarrhea every day. I also developed blisters on my back, believed to be caused from the liver problems. There also were kidney complications related to the Diabetes. At least once a month I was having kidney infections.

Within three days of drinking the Double Helix Water® my pain was subsiding and I was able to eat more normal. Within five days my indigestion and diarrhea stopped. In seven days my blood sugar dropped to 135. I am drinking two glasses a day of the water, mixing 40 drops per gallon. I now sleep better and I have more energy. My pain is mostly gone and the swelling is gone from the liver. I can eat regular food now with no problems. My blisters have dried up and no new ones have formed. I hope that the Diabetes continues to improve as I drink the crystals. I have had no more kidney infections, at present.

Sincerely, CBM

I am 71 years old and for the past 3 years I have been fighting a severe case of arthritis in all my joints mostly in my hips, legs & shoulders. Along with muscle pain and weakness and numbness in my lower legs. I couldn't sleep at night and had no energy. Drugs did not help and I was taking 4 to 8 pain pills a day, just to get around some. After drinking 1 8oz glass of clustered water crystal (Double Helix Water®) a day for 3 weeks I started feeling better and had more energy and the pain in my joints & muscle started to improve. I started drinking one 8oz glass twice a day. Three weeks later the pain in my legs & joints improved by 90 percent. I can stand straight and walk without my cane. I stopped taking pain pills, and now I can sleep at night without pain. I have been on the clustered water for two and a half months. I now feel great. I have more energy & strength in my muscle and the numbness and pain is 98 percent gone. I'm sleeping great thanks to the stable water clustered water.

FM

I must tell you about the "Double Helix Water." Started on it "2 drops to a 6-8 oz of distilled water." It's really incredible. I said it was in my mind but if I don't take it my Arthritis hurts all over my back, hips, and hands. Now after taking it I'm sitting here like I had another person's body. I have a finger on my right hand. I'm sure you know on my right hand it hurt like Hell, was swollen like a sausage and almost unusable. Now the swelling is down and I can cut food and write. I feel like I may have found what they had in "Lost Horizon." My shingles "the bane of my life" are better, the itching and burning going away.

My hips don't hurt so now I can walk without loping along. What can I say but Thanks, Thanks, Thanks! Thanks however is just not a big enough word to say for my appreciation in your sharing this rather magical potion. I wish was permanent because it does wear off. So how long will my bottle last? Will it be available for purchase? I'm looking forward to hearing from you.

Pauline

I noticed improved kidney function within the first week of consistently drinking the prescribed water. My face and skin demonstrated reduced edema. In the area of athletic performance, my endurance improved by 25 to 30 percent within the first 2 weeks. My digestion/elimination improved as well. The most dramatic result I experienced was substantially improved mental clarity and the emergence of a consistent positive outlook on life. I noticed that my body felt much "lighter" when I was walking. In the last 2 years, I have had hip pain and I noticed at least a 50% improvement in my hip pain after 2 weeks of drinking the water.

Sincerely,

RD

I want to thank you for the Double Helix Water - "living water".

Let me start from the beginning. In October 2003 I had a lymphoma tumor and my thyroid gland was removed and I went through Chemo and radiation therapy. I have been cancer free. For the last few months my body has been doing weird things. I have been gaining weight, tired, swelling, fatigued, very high blood pressure which I have never had before; Cholesterol levels were also very high which I have not had a problem with before and so on.

Two weeks ago I went to the doctor and had blood tests, etc. Today I went back for the follow-up. My doctor was astonished that I am still alive! A normal TSH level as you may know is 1.4-4.2. My TSH level was 190. My doctor informed me that if your TSH level is 30-35 your heart goes into defib. My doctor said that she has never in her whole career seen a TSH level this high and was amazed that I was still walking around. I have been taking levothyroid and your water for these two weeks. My TSH level-- I don't know what it is yet--she said I needed to wait 4 more weeks before we do another blood test--but she could already tell that it had come down just by my appearance. The swelling is reduced significantly. My blood pressure was normal 120/70 and I have lost 7 pounds in two weeks. I feel better overall. So thank you for including us in your wonderful discovery! I know that my health is just going to continue to improve. I just wanted to share this testimony with you. And thank you Jesus!

LP

My father was diagnosed with stage 4 colon cancer in the winter of 2009 that metastasized into his liver. The tumor in his colon was surgically removed but the tumor in his liver could not be removed. The tumor had grown to 5cms and had spread to other lobes in his liver. I gave my father the double helix water after he was sent home with a death sentence and less than 2 months later he came back in to get a pet scan. The oncologist was shocked and reported to us that the tumors in his liver were dead, liquefied and no longer growing. There is no medical explanation for how this could have occurred as the only option left to the doctors would be to administer chemotherapy to slow down the spread of the cancer. No hope of an effective treatment or a cure was plausible to the oncologist at this point. During the 2 months of taking the double helix water two times a day, my father was on no medication or undergoing any treatment of any kind.

DN, Los Angeles, CA

The moment I understood what "double helix water" is, I wanted to use this!! I had totally burned out Adrenals, no energy, back pain and arthritis that would keep me awake in the night, not know what side to turn on because of the pain!

I started to drink purified water with 10 drops of Double Helix Water in half a liter of water. In the first 2-3 months I took 1 liter of purified water with the double helix water drops inside, a day. On a more and more basis I got my energy back, the pain of the Arthritis went away and my hair started to grow again! I am not speaking even about the tone and appearance of my skin!!

I am not young anymore "body wise", but many lines in my face disappeared!

The point is that the Double Helix water is working on a so basic level, the cell, it can't go more basic. These stable water clusters repair, and rejuvenate! Now, after 4-5 months, my arthritis is gone, I can sleep again a whole night! I have energy and more than I had in a very, very long time!!

I absolutely recommend this to anyone, who want to feel energetic and "young" again!!

DOUBLE HELIX WATER CREAM WORKS BEST AS ANTI-ITCH RESOLUTION

My daughter had some bug bites that were driving her crazy for the last 2 days—none of my homeopathic creams were helping the itch. One dose of the Martine cream (a brand of Double Helix Water Cream) — —resolved the itch! I should have taken some photos for you!

They are almost gone today!

DOUBLE HELIX WATER AND MAJOR SUNBURN

My mother gave me a jar of Double Helix Water Cream. I thought that all of the hype about DHW cream was a bunch of bunk. However, I had gotten a really bad sunburn the day I got the cream and decided to put it on to see if it would help. Within minutes the burn was GONE! This stuff works!!!

MB, Orange County, CA

REVERSE AGING AFTER TAKING DOUBLE HELIX WATER

I was at lunch at the California University of Technology in Pasadena with some people who had been taking DHW for over a year. Two of them had grey hair with black roots growing in! They also said that they were losing their wrinkles and had more energy than they have had in years. I would have never guessed that they were in their 70s at all!!!

JOINT PAIN HANDLED IN SECONDS AFTER USING DHW CREAM

My friend down the road gave me DHW as a present for Christmas. I put it on the shelf and didn't use it until 3 weeks ago when she also brought me some DHW cream. She had me rub it on my hands that were stiff from 67 years of use and my back that was also stiff. I was in shock when a few seconds later I was able to bend my fingers back farther than I had in 15 years with NO PAIN. I even was able to open a jar of olives that I had not been able to open in 4 years! A few moments later I was able to bend over and touch my toes! Because of the pain in my back, I had not been able to do this for over 15 years either!!! I was SOLD on also drinking the water. That was 3 weeks ago. Since then I have been religiously drinking the DHW daily, 3 drops in and 8oz glass of water, twice a day. Not only do I now feel an amazing increase in energy... but I also have been noticing, much to my surprise, that the fatty tumor on my right arm has been decreasing in size! The other day I looked in the mirror and saw that my eyebrows are growing back!

DHW HELPS CHILD WITH PLANTER FACITIS

I am loving these new protocols. My daughter has been dealing with plantar fasciitis since Christmas. When I read that there had been success with using the water for it, I started her drinking 12 drops per 8 oz. In two days much improvement and now after 1 week is gone.

DETROIT COUPLE IN THEIR 80s HELPED WITH DOUBLE HELIX WATER

I got my dad onto Double Helix Water – got a distiller, got him taking it 2 times per day per the protocols. Note, my dad is 80 years old. He has had 2 kidney transplants, is on dialysis and on painkillers for chronic pain. He has had prostate cancer and is very feeble, walks with a cane etc. He's also worn a knee brace since his 30s. Two weeks later, I call home and my mother tells me, "Your dad tells me the water is curing him. He threw away all his painkillers because he's no longer experiencing any pain and he's thrown away his knee brace as well." So, with that, my mother starts taking DHW and also reports the same – pain free! She's had multiple hip and knee joint replacements, surgery for tendons in her shoulder, hands etc. Basically both were physical wrecks. So, both my mother and father have eliminated the pains they had and are rave about DHW on less than a month on the product. Wow.

AB, Detroit Michigan

DOUBLE HELIX WATER WORKS AS AN ANTI-ITCH & INFECTION SOLUTION

Spent 5 nights in a bedbug infested room before realizing it! By the time I did, I was breaking out all over my face, neck, arms and legs with over 100 seriously swollen, itching bed bug bites! Quickly moved to a motel, got on the internet, researched, went out and purchased every anti-itch product I could find. I did EVERYTHING that I read about! None of it worked for very long. One bite had on my wrist was so swollen I was thinking I should go to the emergency room to have it cared for. Fortunately, I had a few bottles of Double Helix Water (DHW) in my suitcase. Decided to try mixing some of it into some anti-itch "Blu Emu" cream that I had purchased at Walmart. I rubbed the cream on all of my bites and sprayed the infected one with straight DHW. My itching stopped immediately!!! Then I poured some pure DHW into a small spray bottle and sprayed it on my infected bite. Was able to finally get some sleep! When I woke up the next morning, the swollen infected bite had gone down by 80%! I have tried it on, mosquito bites since and it worked to stop the itching for those as well. GREAT STUFF!

DOUBLE HELIX WATER CREAM HELPS 96YR OLD WITH CIRCULATION PROBLEMS

"I am a caregiver to a 96-year-old woman in Los Angeles, CA. She has been having circulation problems with her legs since she took a bad fall when she was 90. Both of her legs from the foot up to her knees have been swollen like 2 giant red logs going down into her bedroom slippers for many years. The doctors have been worried about this but have only given her pain cream to deal with the problem. After only 2 days of putting the cream containing Double Helix Water onto her legs the swelling went down completely. Now I am putting it onto her legs every day and the condition and circulation is continuing to improve as each day passes."

GT – Caregiver, Los Angeles CA

RESULTS WITH DOUBLE HELIX WATER

This has been fantastic for me. It has helped me to heal. I gave a bottle to a client who was suffering from a hot fiery feeling in her forearms, pain in her shoulder and hip...had been suffering for 10 days. First tried 1 ounce of the water and could feel something, but she was suffering so much, she drank 3 glasses last night before bed and she felt her pain disappear after about 35 minutes. She slept deeply for 3 hours, then drank some more and went back to bed. She called me overjoyed this morning. I'm trying to read the book so I can understand the water better. I also gave it to another client who was involved in a VA research fluoride project many years ago.... he only takes about one ounce, as he is very sensitive. He said his mouth tasted like metal and he has been feeling really bad. We (another healer and I) believe his body is starting to detox from all that stuff.

Thanks for checking in.
