

## Scars, Tattoos, Piercings, Vaccination Puncture Sites And Other Interference (To Healing) Fields

By *Dr. Donna F. Smith*

True Anti-Aging Technology and Healing Therapy must be capable of clearing (detoxifying) Interference Fields. **Advanced Clinical Nutrition** has taken Healing to the Next Level by doing just that.

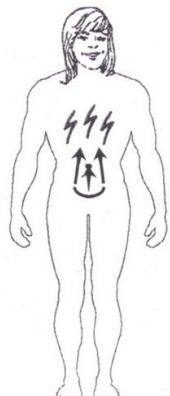

**What is an Interference Field?** An Interference Field (IF) is anything that disrupts the normal flow of bio-energy in the body. In other words, an IF is a trauma that blocks or inhibits the flow of blood, nerve, nutrients, lymph and/or energy through the body. An IF can be located anywhere in the body and can be mental, emotional or physical. Interference Fields “interfere” with the body’s ability to function and heal itself properly and completely. IFs also accelerate aging, which can lead to premature death. An IF remains in the body from its onset until death, unless you clear it. Dr. Smith assess for your particular Interference Fields and provides what your body requires to clear them. Interference Fields are caused by Trauma (physical, mental, emotional) and by Electro-Magnetic Fields (EMF), as defined below:

**Physical Traumas** are broken bones, burns, scars (even well-healed scars), tattoos, piercing, bruises, and puncture sites from IVs or vaccinations (including the toxic vaccine chemicals and metals injected). **Advanced Clinical Nutrition** uses Ancient Highly-Charged, Organic Mineral Packs to clear (detoxify) Interference Fields caused by physical trauma. Once a physical trauma site has been identified as an interference field from a Clinical Nutrition Analysis by Dr. Smith, you are provided these ancient mineral packs and instructed in how to massaged them into the IF sites (Scar, Piercing, etc.) in a specific order to open the circulation of blood, lymph and nerve flow previously blocked by the Interference Field. This procedure requires a specific order of application for detoxification to prevent further blockages.

**Mental/Emotional Traumas** are caused by physical and verbal abuse, long-term negative thinking and stress (real and imagined). Dr. Smith will coach you through a specific Personal Education Program (PEP) on the Mind–and Body Connection, providing specific techniques that you can perform yourself to clear mental/emotional Interference Fields and perpetuating self-destructive habits, and much, much more.

**Electro-Magnetic Fields (EMF)** - Interference Fields may also be caused from exposures to artificial electrical frequencies (AEFs), such as computers, cells phones, TVs, home appliances, etc., which interfere with the healthy function of the electrical system of the human body. For information on how to not only correct these harmful frequencies, but change them to be health enhancing, without interfering with the function of the electrical apparatus, refer to our website for Dr. Smith’s article on “Electro-Magnetic Field (EMF) Remediation,” which includes a Price List and Quick Reference Chart on the products and tools required to remediate your home and office of harmful EMFs..” This article will assist you in how to clear your body of EMFs and how to protect your body from future EMF exposure.

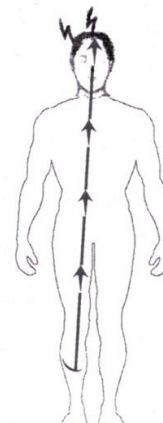

### How Scars Can Create Pain at a Distant Site.

A C-section scar can reflex upwards and interfere with normal digestion.

A gallbladder scar can reflex upwards and create a stiff, painful shoulder.

A leg scar can reflex to the head and create headaches.

## INTERFERENCE FIELDS CAUSE PAIN AT DISTANT SITES

Interference Fields can cause pain in distant areas of the body that “seem” unrelated to the IF site. For example, when a C-Section scar blocks the nerve, blood, and lymph flow to the upper Gastro-Intestinal system, this can cause a myriad of health concerns, such as Heartburn, Gas, Indigestion, Nausea, Vomiting, Diarrhea, Stomach Pain, Gall stones, Shoulder pain and more. See the pictorial examples on page one of this article.

**It’s a fact -- Interference Fields create clinical symptoms that are rarely associated to their real cause. However a Clinical Nutrition Analysis can identify Interference Fields and through Clinical Nutrition Therapy, you can correct their cause.**

## A FEW CASE HISTORIES

A Clinical Nutrition Analysis of William (59 years) identified a puncture site on his left arm from army vaccinations that had been blocking the blood, lymph and nerve flow to his right knee, thus contributing to the progressive degeneration of that knee. Without clearing his interference fields, no amount of drugs, surgery, physical or massage therapy, chiropractic, or even nutritional biochemical supplementation would be able to heal his knee.

Judy (45 years) had gained weight in her abdominal area and developed digestive problems since the birth of her child. Judy saw many different practitioners without resolution. A Clinical Nutrition Analysis from Dr. Smith identified a biofield disruption due to her episiotomy scar from childbirth (even though it appeared well healed). This “break” in her biofield created an abnormal blockage to her abdominal area and stomach. After Interference Field detoxification, all her symptoms cleared.

Jack (70 years) had been deaf for over 30 years. A Clinical Nutrition Analysis identified an Interference field reflexing to his ears. After just two detoxification sessions, suddenly, he could hear again.

## CONCLUSION

A Clinical Nutrition Analysis by Dr. Smith will identify your Interference Fields, its direct and indirect influence on the function of your organs and glands and how to clear these biofield stagnations and disruptions (i.e., Interference Fields) to unleash your body’s own innate healing potential.

Once the biofield (blood, lymph, energy and nerve flow) has been restored to a fully functional bioenergetic network, a thimble of nutritional supplements can do what a handful of supplements used to do. This means faster healing, less supplement taking, and therefore, less financial investment in restoring your health.

Once the biofield has been restored, your body has the potential to heal in areas it could not before, even after having received the best in medical, chiropractic and clinical nutrition care for those areas. Through Clinical Nutrition Therapy, your own innate healing system will be able to repair and regenerate quickly and efficiently as it was initially designed to do for you.

*Call today to schedule a Telephone Consultation with Dr. Smith to discuss your current symptoms to determine if perhaps they are being caused by Interference Fields and/or whether IFs are contributing or perpetuating factor in addition to other causes, as well as obtain the therapy to clear your Interference Fields!*

## ABOUT DR. SMITH

Dr. Donna F. Smith holds a Ph.D. in Clinical Nutrition, is a Naturopathic Doctor (N.D.), a Licensed Certified Dietitian-Nutritionist (C.D.N.), a Board Certified Clinical Nutritionist (C.C.N.) and a Canadian Chartered Herbalist (C.H.). Dr. Smith has over 90% success in helping her clients improve their health, no matter what their current health concerns. Her clientele resides in 36 U.S. States and six international countries. Vitamin Deficiency Testing of blood, urine, saliva, hair and stool, along with Clinical Nutrition and Naturopathic Therapies based on test findings are provided by telephone consultations, internet/website access, UPS and U.S. Mail for people all ages and gender. To contact Dr. Smith, call (940) 761-4045.
