A comprehensive guide to products and services for active & vibrant senior adults

# Scars, Tattoos, Piercings, Vaccination Puncture Sites and Other Interferences To Healing!

Judy (45y) gained weight in her abdominal area and developed digestive problems after the birth of her child. Judy saw many different practitioners without getting help. However, after identifying and then clearing a biofield disruption due to her episiotomy scar from that childbirth, all symptoms cleared, too. This scar had caused an abnormal blockage to her abdominal area and stomach, which is termed... an "Interference Field" or to be more exact, an "Interference to Healing Field."

AN INTERFERENCE FIELD (IF) is anything that disrupts the normal flow of bio-energy in the body. In other words, an IF is a trauma that blocks or inhibits the flow of nutrients, blood, nerves, lymph and/or energy through the body, as well the flow of pure energy outwards from the body.

Interference Fields "interfere" with the body's ability to function and heal itself properly and completely. IFs also accelerate aging, which may lead to premature death.

Some of the more obvious examples of Interference Fields are scars, tattoos, piercings, and puncture sites from vaccinations and IVs, to name a few.

Take Time for Your Health Now or Make Time For Your Disease Later!

People can have multiple Interference Fields and each one remains in the body from its onset until death, causing many health problems, unless you clear (detoxify) it. And yes, it is possible to clear the Interference Fields without removing the tattoo, piercings, etc.

IFs CAUSE PAIN AT DISTANT AREAS of the body that "seem" unrelated to the IF site. For example, an episiotomy scar (like Judy's) or any C-Section scar blocks the nutrient, blood, nerve, lymph and energy flow to the upper Gastro-Intestinal system, and causes a myriad of health problems, such as

Heartburn, Gas, Indigestion, Nausea, Vomiting, Diarrhea, Stomach Pain, Gall stones, Shoulder pain and more!

Interference Fields can be located anywhere in the body and are caused by Trauma (physical, mental, emotional) and Electro-Magnetic Fields (EMF).

PHYSICAL TRAUMAS are broken bones, burns, scars, tattoos, piercing, bruises, and puncture sites from IVs or vaccinations (including their toxins), to name a few. Interference Fields can be caused by head trauma or other injured areas of the body, from accidents, war or abuse.

MENTAL/EMOTIONAL TRAUMAS are caused by physical and verbal abuse, unhealthy relationships, accidents, long-term negative thinking, and stress (real and imagined). Through our individualized Personal Education Program (PEP) on the Mind-Body Connection, you will learn specific techniques to clear mental/emotional Interference Fields,

which have a positive effect on clearing perpetuating self-destructive habits, and much more.

ELECTRO-MAGNETIC FIELDS (EMF) cause Interference Fields due to exposure to artificial, electrical frequencies (AEFs), such as computers, cell phones, TVs, appliances, etc., which interfere with the healthy function of the electrical (nervous) system of the human body.

NUTRITION FACT #25: Interference Fields create clinical symptoms that are rarely associated with their real cause. However, through our Clinical Nutrition Therapy, they may be identified and cleared, which then causes the IF-related symptoms to abate.

Once the blocked biofields have been cleared, your body has the potential to heal in areas it could not before and through Clinical Nutrition Therapy, you will be able to help your own innate healing system to repair and regenerate faster, and more efficiently, as it was originally designed to do.

For Diagrams of Interference Fields, more case histories

and more IF education, this complete article is available on our website at the Education Menu for "Articles by Dr. Smith." The Education Menu will also take you to all of the articles I have written for "The Villager Publications" since March 2021.

**Call me at (940) 761-4045 to schedule a FREE Telephone Consultation to discuss the causes and healthy solutions for your current symptoms, whether they are from Interference Fields or other nutritional biochemistry causes.**

*Dr. Smith is the owner of ADVANCED CLINICAL NUTRITION (Est. 1981) in Wichita Falls, Texas, with clients residing in 37 U.S. states and seven international countries. Since opening her business, she has continued to hold a successful track record of over 90% in helping her clients improve their health, and she can help you, too, no matter where you live.*
